Dear Colleagues:

Welcome to the 2018 Pediatric Academic Societies Annual Meeting! Thank you for stopping by the NewYork-Presbyterian booth. We are pleased to share this guide to presentations by our Weill Cornell Medicine team, and hope you have a chance to attend some of these innovative sessions.

Once again, many of our Weill Cornell Medicine faculty are participating as presenters and course leaders in educational sessions including workshops, posters and platforms. We are especially proud of our residents and fellows whose work has also been selected for presentations at this year’s meeting.

The PAS meeting is an important forum for those working in children’s health to learn and share best practices in clinical care, education, patient safety, and research to ultimately improve care for our young patients and their families.

Other PAS highlights, of course, include the opportunity to reunite with old colleagues and develop new collaborations.

We are looking forward to an engaging and diverse meeting.

Best regards,

Gerald M. Loughlin, M.D., M.S.
