

# Weill Cornell Medicine Pediatrics

## Department of Pediatrics

### RESEARCH SUPPORT AND ADMINISTRATION

#### About

Join the Department of Pediatrics – Where Innovation Meets Care! As a leading children's care program affiliated with a prestigious medical school, our department is at the forefront of cutting-edge pediatric research. We foster collaboration between basic and clinical medicine to advance pediatric health. With over 23 Clinical Research teams and 14 Research Laboratories, we manage 145 research grant awards, support 44 funded investigators, and oversee annual projects totaling \$32.1M. Our department also handles 240 active IRB protocols for 76 principal investigators.

Don't miss the **Gale and Ira Drukier Institute for Children's Health**, housed within our department. This interdisciplinary institute leverages genomics and cutting-edge research to drive innovation in pediatric care, seamlessly translating discoveries into advanced, safe, and effective patient care.
